

Carepath's Elder Care Program

Carepath's Elder Care program provides seniors and their families with a Nurse Case Manager to address members' evolving elder care needs.

Our Nurse Case Managers will work with you and your family one on one to help you understand and navigate the health care system so you can make informed decisions and appropriate arrangements for care.

We'll have an initial consultation assessment with you and/or your aging loved one and develop a personalized care plan based on your individual preferences and common senior health care needs.

Our Nurse Case Managers will help you prepare for any upcoming medical appointments and give you information and services to promote safe and independent living. When staying at home is no longer a safe option, they'll help you and your family find the right senior living facility, such as retirement homes, long-term care, and/or respite facilities.

You and your family will receive ongoing virtual nursing support, health education, and coaching to ensure you have the information you need every step of the way.

Carepath also helps you and your family by:

Providing information about hospice organizations and home care support services provided by local and respected organizations and assisting as needed.

Providing information and access to local community resources (i.e., primary care physicians, physiotherapy, occupational therapy, speech-language pathology, dietitian services, meal delivery, transportation services) and volunteer organizations that can provide additional support.

Helping navigate and accessing provincially and federally funded benefits, including other insurance benefits.

One-on-one coaching about how to have difficult conversations in terms of aging care needs and life-changing moments, such as losing a spouse or moving into a retirement home.

Accessing the Social for Seniors platform to connect seniors with seniors.
